

COMPANY PROFILE

ENVIPCO (Environmental Products Corporation), an American-based company (in Connecticut), with operations in several countries around the globe, is a recognized leader in the development and operation of reverse vending machines (RVMs), automated technological systems for the recovery of used beverage containers. Known for its innovative technology and market leadership, **ENVIPCO** holds several intellectual property rights for RVM systems, including but not limited to beverage refund deposit markings, material type identification, compaction and accounting.

TEXAN S.A. Environmental Management, **ENVIPCO's** exclusive distributor in Greece and Cyprus, is a recognized leader in the operation of reverse vending machines (RVMs) in these Countries, cooperating with the main supermarkets, municipalities and organizations for the development of packaging recycling.

The long-term and excellent cooperation of **ENVIPCO** with **TEXAN**, combined with the excellent prospects of the Greek economy and the highly trained human resources, has led to an **investment** in Greece by **ENVIPCO** for the **assembly** and **production** of model **ULTRA** RVMs in Greece.

Note that this investment, in December 2019, in Pallini of Athens, for high technology products, is the **first investment outside the United States** for the production of model **ULTRA** RVMs, bringing Greece into a hub for all Europe. Also, through this prominent investment, a significant number of **new job placements** will be arisen.

Innovation and **creativity** are the key words that characterize **ENVIPCO** and **TEXAN** alliance, while the "**Circular Economy**" is the heart of our operations. Our machines are the epitome of **ingenuity in technology of recycling**.
