Plastics Challenges: Next steps...

Dr. Angeliki Kosmopoulou, Executive Director

Perform large-scale cleanups

A background image showing several volunteers in wetsuits and life jackets cleaning a beach. They are carrying large white bags filled with trash. The beach is sandy, and the ocean is visible in the background. The text is overlaid on a semi-transparent white box in the center.

To date, the Typhoon has cleaned
over 3,000 beaches
and collected
over 400 tonnes of beach litter

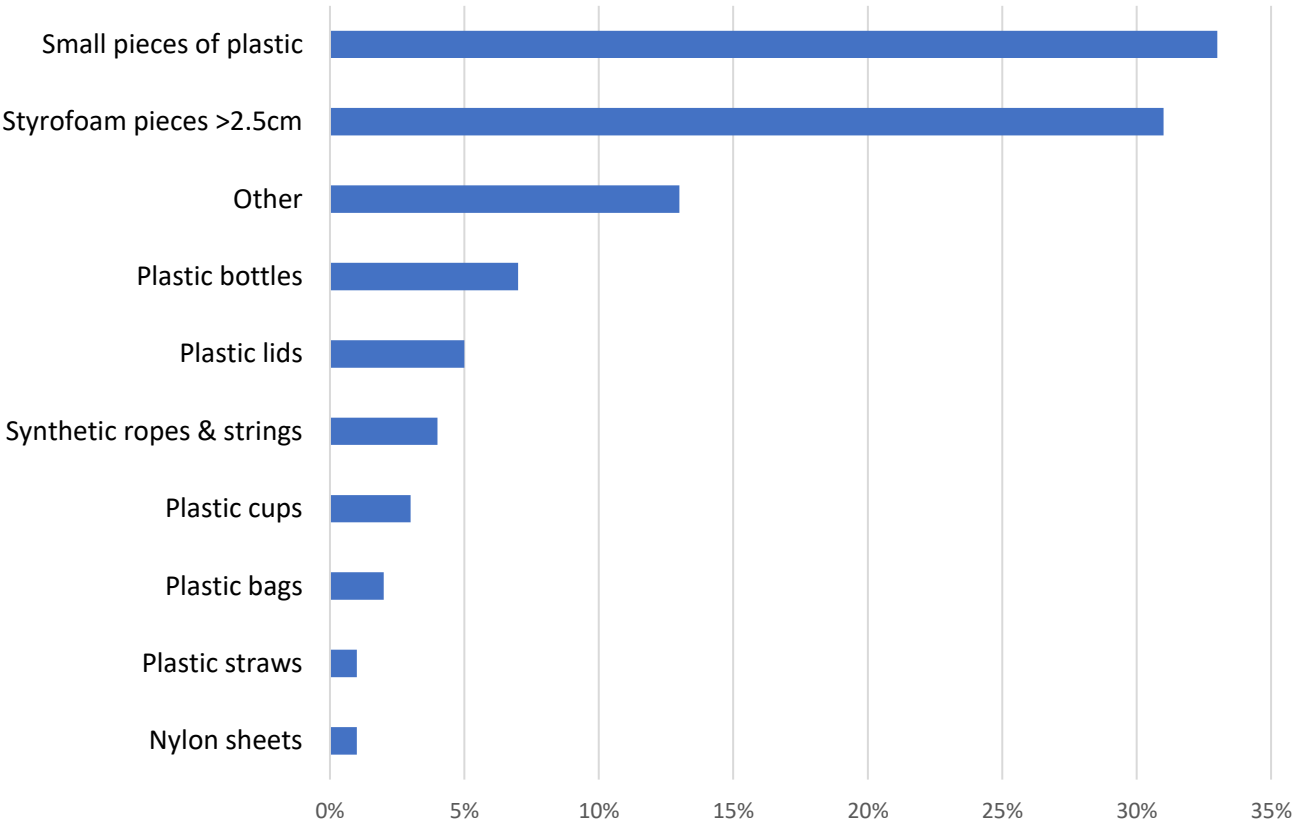

Collect and analyze data

31/07/2019 – 31/07/2022

10 commonest types of beach litter

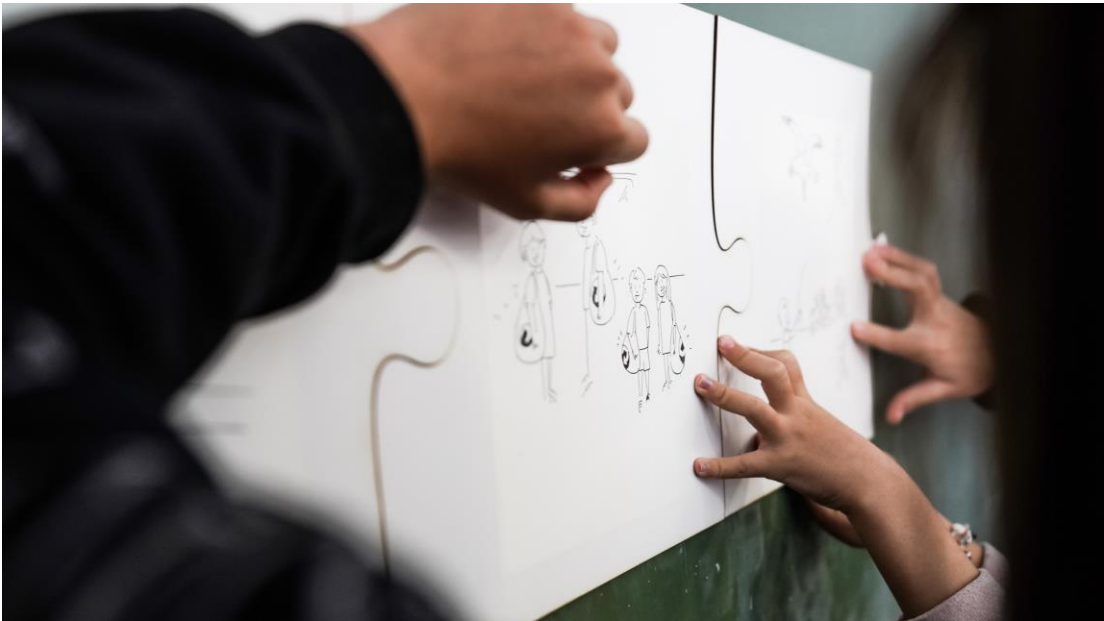

Fund and support research

Educate youth

Educate other stakeholders
