

Nestlé

Good food, Good life

SUSTAINABILITY AT THE HEART OF EVERYTHING WE DO

We only have ONE HOME, running out of time ...

"We set out to explore the moon
and instead discovered the Earth",
Anders, 1968, Earthrise.

Nestlé's Net Zero Roadmap

Our long-term vision

- Achieve Net Zero Greenhouse Gas Emissions by 2050

Our commitments

- None of our packaging, including plastics, ends up in landfill or as litter.
- Transform our products to be more climate friendly
- Use 100% renewable electricity in our offices and factories

Our Sustainability Journey

April
2018

- Launched **global commitment on recycling and reusable packaging** for 2025

September
2019

- Inaugurated **Nestlé Institute of Packaging Sciences**

January
2020

- Pledged CHF 1.5 bn toward **food-grade recycled plastics**
- Committed to **reduce virgin plastic** use by 1/3 by 2025

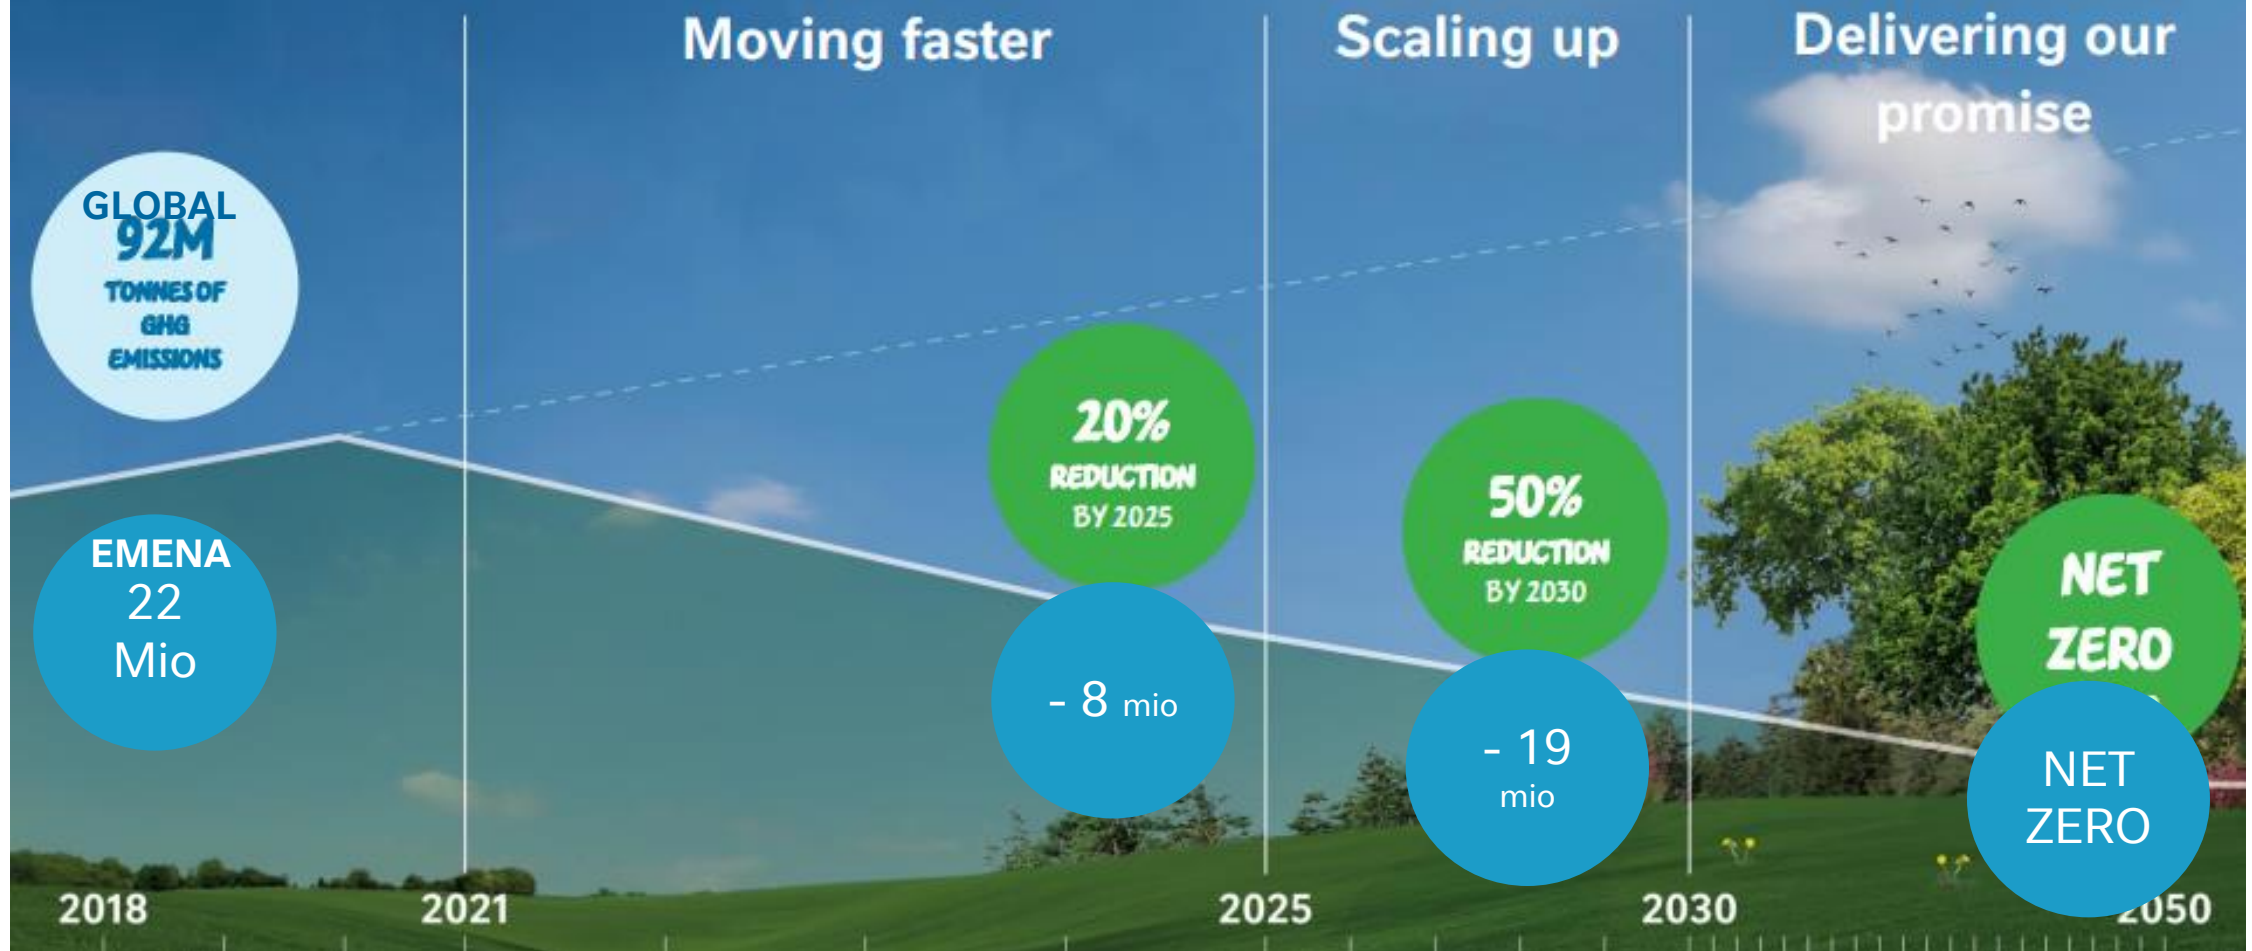

December
2020

- Published **Net Zero roadmap**

Nestlé's Net Zero Roadmap

Our path to regeneration for future generations

Nestlé's need: Sustainable Fit-For-Purpose Food

Delivering safe and nutritious food

Safety & quality

Pre-portion

Avoid food waste

Information

Adapting to product and geography

Product sensitivity

Climate

Route-to-market

Legislation

Our aims

Sourcing our ingredients sustainably

Transform our product portfolio

100% of our packaging will be recyclable or reusable by 2025

1/3 reduce of virgin plastic

100% renewable energy to manufacture our products

90% of the company's fleet will consist of "green" vehicles by 2025

Contributing to Zero CO₂ by 2025

Alternative products

Enhance our voice and strive for more collective actions to promote sustainability

Regenerative Agriculture : Straw from Straw

staramaki
καλαμάκι από φυσικό στέλεχος σιταριού

Collaboration with Staramaki, a social company based in Kilkis

- ✓ 100% natural straws from wheat stems that cause zero waste and pollution
- ✓ Socially responsible (provide employment to local community and support low income families)
- ✓ Supporting circular economy (pellet production from coffee residue), biodiversity, protecting soil
- ✓ Related to coffee's activity and product usage

Driving towards a circular and waste free economy

Reduce

- 1/3rd less virgin plastic

Reuse

- Piloting refill & reuse systems

Recycle
