ARMATURA – Science, Innovation, Health

ARMATURA

SUPPLEMENTS

ARMATURA is one of the most dynamic and innovative companies in the field of pharmaceutical dietary supplements, founded on the globally awarded **Molecular Activation technology**. This technology multiplies the bioavailability and effectiveness of active ingredients without altering their chemical structure, delivering products of superior safety, reliability, and true scientific excellence.

ARMATURA is built upon a **strong scientific foundation**, maintaining steady collaborations with universities, research centers, and clinical institutions in Greece and abroad. Its products are supported by numerous clinical studies published in high-impact international journals, underlining their seriousness and reliability. The company continually invests in research and scientific validation, pioneering a new path for the future of nutritional supplements.

Strategically, ARMATURA focuses on key areas of health:

Infertility, with specialized formulations that support male and female reproductive health.

Urological and nephrological conditions, with natural solutions of high effectiveness.

Viral and HPV infections, where products containing glycyrrhizic acid and powerful natural immunomodulatory agents have demonstrated clinically proven benefits.

Antioxidant protection, with top formulations recognized internationally.

PLATINUM SPONSORS

ARMATURA

SUPPLEMENTS

ARMATURA has been awarded the **PRIX GALIEN** twice, the highest global distinction for pharmaceutical innovation. At the same time, it has developed an ambitious strategy of international expansion, aiming to establish a strong presence in Europe and the United States, with the prospect of high-level global collaborations.

The vision of ARMATURA is clear and human-centered:

“We improve the quality of human life from conception to the deepest years of old age.”

ARMATURA is not just a company; it is an organization dedicated to health and humanity, committed to innovation, quality, and integrity. With a leadership vision and an outward-looking strategy, it is shaping the future of nutritional supplements

GOLD SPONSORS

Who we are

GE HealthCare (Nasdaq: GEHC) is a leading global medical technology, pharmaceutical diagnostics and digital solutions innovator, dedicated to providing integrated solutions, services, and data analytics to make hospitals more efficient, clinicians more effective, therapies more precise and patients healthier and happier. Serving patients and providers for more than 100 years, GE HealthCare is advancing personalized, connected and compassionate care, while simplifying the patient's journey across the care pathway.

GE HealthCare

Our key metrics

1B+ patients served annually

100+ years legacy

51,000+ colleagues

4M+ installed base equipment

\$19.6B revenue

\$1B+ annual R&D and product investment spend

58 AI-enabled medical device authorizations, topping U.S. FDA list

Our four business units

Imaging: Medical imaging solutions including CT, MR, molecular imaging, X-ray, women's health, image-guided therapies, enterprise imaging software, service capabilities, and digital solutions.

Milestone: FDA clearance for state-of-the-art deep learning-based technology that enables MR cardiac imaging within a single heartbeat and can help reduce scan time by up to 83%.

GOLD SPONSORS

Ultrasound: Consoles and probes, handheld devices, intraoperative imaging systems, visualization software, service capabilities, and digital solutions.

Milestone: Pioneered the first handheld ultrasound in 2010. In 2021, we made it wireless and pocket-sized with crystal clear image quality for whole-body scanning and added intuitive software - all in the palm of clinicians' hands.

Patient Care Solutions: Monitoring, anesthesia and respiratory care, maternal infant care, and diagnostic cardiology solutions, as well as consumables, service capabilities, and digital solutions.

Milestone: FDA clearance for a first-of-its-kind, wireless monitoring solution aiding early detection of patient deterioration.

Pharmaceutical Diagnostics: Contrast media and radiopharmaceuticals agents that enhance diagnostic images.

Milestone: Introduced the first and only FDA-approved PET agent for color imaging of amyloid plaque now being used to aid in the diagnosis of Alzheimer's disease in patients with cognitive decline.

Creating a world where healthcare has no limits

We are an \$19.6 billion business with over 51,000 colleagues working to create a world where healthcare has no limits

We execute on our precision care strategy at the forefront of care delivery across the patient journey

We play a central role in healthcare digitization with 200+ software apps driving breakthroughs in clinical insights

We are an industry-defining innovator with 9,700 engineers and scientists focused on R&D

We are a leader in an attractive \$84B global healthcare market

We are led by an experienced leadership team with the right strategic vision:

Peter J. Arduini- President and Chief Executive Officer

James (Jay) Saccaro- Vice President and Chief Financial Officer

CSL is a global biotechnology company with a dynamic portfolio of lifesaving medicines, including those that treat hemophilia and immune deficiencies, vaccines to prevent influenza, and therapies in iron deficiency and nephrology. Since our start in 1916, we have been driven by our promise to save lives using the latest technologies.

In CSL Behring we are using the latest technologies to discover, develop and deliver innovative therapies for people living with rare diseases in the immunology, hematology, respiratory, and transplant therapeutic areas. We use three strategic scientific platforms of plasma fractionation, recombinant protein technology, and cell and gene therapy to support continued innovation and continually refine ways in which products can address unmet medical needs and help patients lead full lives.

Our parent company, CSL, headquartered in Melbourne, Australia, employs more than 32,000 people, and delivers its lifesaving therapies to people in more than 100 countries.

SILVER SPONSORS

The **Greek Association of the Self-Care Industry (EFEX)** is the representative voice of the consumer healthcare sector in Greece. Bringing together leading national and international companies, EFEX advocates for a sustainable, modern, and patient-centred health system where **self-care** plays a central role.

EFEX is an active member of the **Association of the European Self-Care Industry (AESGP)**, ensuring that Greek perspectives are integrated into European decision-making and that EU policies are communicated effectively to national stakeholders. The association monitors, analyses, and responds to a wide range of regulatory and policy developments—covering areas such as **pharmaceutical legislation, medical devices, environmental policy, and digital transformation**.

One of EFEX's priorities is to strengthen the role of **self-care as a strategic pillar of healthcare policy**. By enabling citizens to manage common conditions, prevent illness, and adopt healthier lifestyles, self-care helps reduce pressure on healthcare systems while improving quality of life. EFEX supports evidence-based policies that recognize the contribution of self-care to **prevention, sustainability, and innovation**.

A key partner in this effort is the **community pharmacist**, who remains the most accessible healthcare professional for Greek citizens. EFEX highlights the pharmacist's evolving role as a trusted advisor in prevention, digital health, and responsible use of medicines. Through publications, events, and training, EFEX fosters dialogue between pharmacists, policymakers, industry, and consumers.

EFEX also collaborates with academic institutions, policymakers, and international organizations to ensure that Greece aligns with best practices in the self-care sector. The association is committed to **transparency, sustainability, and innovation**, positioning itself as a reliable partner for stakeholders across the healthcare ecosystem.

In an era of demographic change, digital transformation, and financial constraints, EFEX works to ensure that **self-care becomes an integral part of Greece's health strategy**. By advocating for balanced regulation, supporting pharmacists, and empowering citizens, EFEX contributes to a healthier society and a more resilient healthcare system.

SILVER SPONSORS

GENESIS Pharma is a biopharmaceutical company specializing in the commercialization of innovative pharmaceutical products for serious and rare diseases in Central and Eastern Europe. Established in 1997, GENESIS Pharma was the first pharmaceutical company in Greece and one of the first in Europe to focus on the sales, marketing and distribution of biopharmaceutical products. Shortly after its founding, the company began to steadily expand at a regional level, today covering most countries in the CEE region.

The robust network of its strategic partnerships comprises leading international pharmaceutical companies dedicated to cutting-edge R&D, alongside fast-growing biopharmaceutical companies with pioneering research and disruptive innovations in the development of targeted, specialized treatments for orphan diseases.

In total, GENESIS Pharma holds a product portfolio covering over 30 serious and rare diseases, predominantly within the therapeutic areas of neurology, genetic diseases, oncology, hematology, rheumatology, dermatology, nephrology, gastroenterology, and cardiology. In Greece, the company is the largest among Greek companies specializing in innovative medicines, based on turnover, as well as one of the most awarded companies for its commitment to sustainable development and good working environment.

SILVER SPONSORS

GILEAD SCIENCES is a research-based biopharmaceutical company that discovers, develops, and delivers innovative therapeutics for people with life-threatening diseases.

At Gilead, we set and achieve bold ambitions in our fight against the world's most devastating diseases. We are driven by our purpose of making the world a healthier place for all people. That means delivering innovative therapies that offer new hope for patients.

Our ambitions have led us to a cure for Hepatitis C and to transforming the treatment and prevention of HIV. Our innovation is helping people with diseases and conditions that include cancer, viral hepatitis, HIV and COVID-19.

By investing in world-class science, driving access to our medicines, addressing societal barriers to care, and building a culture where our employees can make a real impact, we will continue to confront the biggest public health challenges of our day for the benefit of generations to come.

Gilead is a global company of over 18,000 employees with 28 currently marketed therapies. Gilead entered the Greek market in 2001, currently delivering innovative medicines to treat HIV, Hepatitis B, D and C, Hematology/Oncology, Covid-19 and Invasive Systemic Fungal Infections as well as Cystic Fibrosis. Today, Gilead Sciences Hellas occupies 52 people focusing on medical, regulatory, and commercial activities.

SILVER SPONSORS

GSK is a focused, global biopharma company with the purpose to unite science, technology, and talent to get ahead of disease together.

We aim to positively impact the health of 2.5 billion people by the end of 2030 and our bold ambitions for patients are reflected in new commitments to growth and a step change in performance.

We prioritize innovation in vaccines and specialty & generic medicines, maximizing the growing opportunities for disease prevention and treatment. At the heart of this is our R&D focus on the science of the immune system and advanced technologies, and our world-leading capabilities in vaccines and medicines development, while focusing on four therapeutic areas: Infectious Diseases, HIV, Oncology/ Haematology, and Respiratory / Immunology.

In Greece, we deliver more than 70 innovative vaccines and medicines for the prevention and treatment of diseases. In parallel, by holding a leading role in the development of vaccines, we deliver vaccines for the prevention of all diseases described in the National Immunisation Program for infants, children, and adults.

We contribute to the acceleration of the transition towards a more sustainable, resilient, and inclusive healthcare environment in Greece, in favour of patients, while actively participating in the Greek economy, directly employing more than 200 employees, and investing in the conduction of clinical trials and other initiatives with socio-economic impact.

We undertake initiatives that significantly contribute, on the one hand, to strengthening the work of the State and the National Health System, and on the other hand, to improving patients' lives while simultaneously supporting the initiatives of Healthcare Professionals who care for them.

Our values and aspirations are at the heart of what we do and guide us in fulfilling our ambition and purpose: to unite science, technology, and talent to get ahead of disease together.

SILVER SPONSORS

KYRIAKIDES GEORGOPOULOS
Law Firm

KYRIAKIDES GEORGOPOULOS Law Firm (KG) is a leading multi-tier business law firm and the largest in Greece, dating back to the 1930s, recognized for its prestige and expertise. With approximately 120 highly specialized lawyers, KG provides services to Greek and multinational corporations, renowned for handling complex, innovative cases, and cross-border transactions. Preferred by US and European law firms, KG delivers legal services at the highest international standards of quality and client service. Our partners and lawyers are active participants in major international law organizations and networks, including the International Bar Association, the American Bar Association, the Antitrust Alliance, and the Employment Law Alliance, among others.

KG is a founding member of South East Europe Legal Group (SEE Legal) a regional alliance of major law firms from 12 countries in South East Europe, established in 2003. Working together on cross border transactions, SEE Legal is the largest local legal team in SE Europe, with more than 450 lawyers organized in cross-jurisdictional practice groups. Our firm's performance is consistently ranked highly by the most prestigious of international directories, such as Chambers & Partners Global, Chambers & Partners Europe, Legal 500 EMEA, as well as IFLR1000.

KG has also long been a pioneer in the Greek legal market, achieving ISO 9001 certification in 2006, a distinction held by only a select few law firms in Greece. Additionally, KG is certified under the firm's Unified Information Security and Privacy Management System, adhering to the international standards ISO/IEC 27001 and ISO/IEC 27701. These certifications reflect our commitment to excellence in data security, privacy management, and client trust.

KG is the first Greek law firm that obtains the International Certification «Great Place to Work®» (CERTIFIED by Great Place to Work®), which is awarded to organizations that stand out as selection employers in a competitive talent search market.

About UCB

UCB, Brussels, Belgium (www.ucb.com) is a global biopharmaceutical company focused on the discovery and development of innovative medicines and solutions to transform the lives of people living with severe diseases of the immune system or of the central nervous system. With approximately 9,000 people in approximately 40 countries.

UCB is driven to ensure that everyone can live the best life they can, as free as possible from the challenges and uncertainty of disease. This ambition fuels our purpose: creating value in the lives of the people we serve, now and into the future. Our research and development activity across neurology, immunology, and other areas where our expertise aligns with unmet needs is driven by our connection to the people we serve. Their unique and diverse perspectives serve as guides and inspiration as we explore the furthest reaches of science and medical knowledge. We listen to and learn from them, ensuring that our work has the greatest possible impact by delivering differentiated solutions that create value that cannot be expressed in numbers alone. We seek out tools, technologies, employees and partners that let us respond to patient needs with purposeful innovations that make a truly meaningful impact. From our headquarters in Belgium to nearly 40 countries around the world, we pursue that ambition each day, promoting a culture of collaboration and curiosity that values diverse perspectives and backgrounds. We are committed to caring for each other, for our communities, for the planet, and for the people who inspire our work.

Inspired by **patients.**
Driven by **science.**
